BUSINESS ON

WALL STREET

Movement in Prices Decidedly Erratic.

DISTRIBUTION WAS GOOD.

BOND MARKET DEVELOPS CONSID-ERABLE HEAVINESS.

Sovernment Bonds Active, with a Sagging Tendency-Foreign Stock Markets Quiet-Sterling Exchange Ensier-Live Stock Markets Quiet -Metals Dull.

NEW YORK, July 2 .- Business on the stock exchange was on a less active scale today, but the movement in prices was decidedly erratic. The distribution of the transactions was good and the greatest animation occurred in the early forenoon. The features of the speculation were alternate bear raids and covering movements and continued foreign purchases. A favorable key note was struck at the opening by higher London prices, and under their influence the local market started in strong and active. At the outset sugar was in good demand and rose 1½ per cent. The improving tendency was checked almost immediately after the opening, and the market began a retrograde movement. Large arretthe opening, and the market be-gan a retrograde movement. Large blocks of securities were thrown over and the bear leaders and their follow-ing sold right and left to emphasize the break, numerous stop orders being received. Prices ran off sharply and in a number of the principal shares the lowest figures in the present movement were reached.

Ware reached.

At the lowest point support was accorded by inside interests in various properties and extensive covering by shorts was noted. The market quieted down after the first hour and had a better tone, which was chiefly due to resumed heavy purchases of stock for European account. These buying orders were estimated as high as 25,000 shares. Some irregularity despessed. shares Some irregularity developed after middar, but improvement again became general after 1 o'clock and oventually decided strength was manifested in most stocks. The closing was strong at the best figures of the day.

day.

The bond market developed heaviness in sympathy with the early depression in the stock market, but also responded to the rally in that department. Sales were \$\$44,000.

Government bonds were active with a sagging tendency, the new 4's reacting to 116. The sales were \$76,000.

Silver certificates eased off to 68% on dealings of \$20,000.

Silver certificates eases on the dealings of \$20,000.

Money on call steady at 265 per cent; fast loan, 2; closed, 2½.

Prime mercantile paper, 465½ per Sterling exchange casier with actual

business in bankers' bills at 4.875,64.53 for demand and 4.8764.87% for sixty days. Posted rates, 4.8864.89. Commercial bills, 4.864.89

Bar silver, 684. Sliver certificates, 68%@69.

Post's London financial cablegram:

The stock markets were very quiet today. Americans have drooped a little, but are well above the parity, a good deal of buying taking place for usually well informed people. In the weekly statement of the Bank of England, the coin and bullion show a decrease of £571,000, owing to the usually currency demands at this period of the year. One hundred and nine thousand pounds in gold came in from abroad £5,000 pounds coming from Italy and the rest from Australia. The return is a very remarkable one in many other respects, but chiefly on account of the magnitude of the public deposits which are about £20,000,000 more than a year ago.

The bourse of Paris opened firm and closed steady to firm. The Berlin market in the state of the public deposits which are about £20,000,000 more than a year ago.

CHICAGO GENERAL MARKET.
CHicago, July 2.—In wheat there was a fair business, but the market ruled spasmodic, being dull early and fairly lively later on, the range for the day lively later on the later of the tongue. It is that the the tongue it is that the baby does not breathe properly when both it is that the tongue. It is that the tongue. It is that the tongue. It is tha spaceholm.

Ively later on, the range to all lively later on, the early cables were against the price, as they nearly all came lower, and the stock market was breaking sharply both in London and and powerful stimulus than any of the old methods, such as rolling the subconsiderable selling pressure. But the sentiment soon shifted, the price current crop summary, was regarded as rent crop summary, was regarded as lungs.—New York Press. sentlment soon shifted, the price current crop summary, was regarded as him with his arms or blowing into his lungs.—New York Press.

so tell of disappointing returns and the

to tell of disappointing returns and the short interest got thoroughly alarmed and covered actively, while there was little for sale, and an advance of 1½ was the result.

The bad crop news and the anxiety of shorts had the effect of causing the weak situation in stocks to be overlooked. Had the market not been hampered by the Wall street situation and the free sliver agitation the gain would undoubtedly have been much greater.

There was considerable realizing at the advance and this, with short selling and the effect of large estimated receipts for tomorrow, created a weaker feeling in the last hour.

Corn was firm and inclined to advance with wheat until the estimated

Corn was firm and inc'ined to advance with wheat until the estimated receipts for tomorrow were given at 355 cars, after which it ruled heavy independently of wheat.

Oats, at the opening, had an easy feeling. Later, the price improved under fairly urgent demand from shorts and good cash inculry and prices reacted, the closing showing practically no change. The speculative provision trade was light and the trading pit deserted during a great part of the session. Firmness in wheat and much lighter receipts of hogs than was expected kept prices above the closing rates for the day before.
